Course Description

This course was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police. ARIDE was created to address the gap in training between Standardized Field Sobriety Testing (SFST) and Drug Evaluation Classification (DEC) Program.

This course will offer additional information to the law enforcement officer on detecting impairment caused by more than just alcohol. Officers completing the training will be more proficient with the three batteries of tests: HGN, Walk and Turn, and One-Legged Stand, as well as other drug impairment indicators. Officers will also be more familiar with the DRE (Drug Recognition Expert) program and its function.

Course Objectives

- ✓ Update of Standardized Field Sobriety Testing Battery
- ✓ How drug impaired driving affects our community
- ✓ SFST Proficiency Examination
- ✓ Drugs in the human body and their impairing effects
- ✓ Seven categories of drugs identified in the DEC Program
- ✓ Additional sobriety tests to provide expanded knowledge of detection
- ✓ Provide expanded knowledge of prosecuting drug impairment drivers

Instructors

Sergeant **Mike Pappas** (retired Illinois State Police) is the State of Illinois Drug Evaluation and Classification Program coordinator. He has been a SFST Instructor since 2009, a Drug Recognition Expert (DRE) since 2012 and a DRE Instructor since 2013.
